Security Awareness Training (BSAT)

Course Code   BSAT-IE-V20

Prerequisites   Good understanding of English.

Description

Target Group   All air transport industry personnel.

Course
Objective   The main objective is to ensure staff understand the need for aviation security, are aware of the security measures in place at the airport and/or the facility where they will be working, to recognise the security needs of an airport and understand the part they can play in contributing to aviation security.

Training
Language   English

Duration   1h20

Final Test   The trainee must pass, with a grade of 85% or higher, a multiple choice test to complete the Basic Security Awareness Training. The trainee receives his/her certificate as soon as he/she has successfully passed the final test. All trainees are given two attempts to pass the test.

Certification   The trainee receives his/her certificate as soon as he/she has successfully passed the final test.

Validity   Once the Basic Security Awareness training is completed, refresher training must be conducted every three years.
